It's great to spend Christmas with family and friends, and while technology allows us to video call those who are far away, it's no substitute for having them physically with us.

The great message of Christmas is that God hasn't stayed at a distance in human history, but chose to send his Son Jesus to be born as a baby, and live amongst the human race He created. Born not in a palace fit for a king but a dirty stable in a nowhere town.

The implications for us and our lives on earth are huge! Jesus offers us a friendship and relationship that changes everything about our past, our present and our future
